

Ceramic Micro Heater For E-cigarette

GREENWAY Ceramic Micro Heater for E-cigarette made by Aluminum Ceramic heater element were developed based on ceramic lamination technologies, which are mainly used for automotive and various industrial applications such as soldering iron, kerosene & gas equipment, pellet burner and water heating.

Model:heating cup

Ceramic Micro Heater For E-cigarette

GREENWAY **Ceramic Micro Heater for E-cigarette** made by Aluminum Ceramic heater element were developed based on ceramic lamination technologies, which are mainly used for automotive and various industrial applications such as soldering iron, kerosene & gas equipment, pellet burner and water heating.

Thermal Properties of Ceramic Micro Heater for E-cigarette

Thermal Properties

Item	Unit	Alumina Heater
Max Working Temperature	°C	1050
Working Temperature	°C	1050
Thermal Conductivity	W/ (m.k)	21
Specific Heat	J/(kg.k)	0.78*103
Expansion	/°C(40~800°C)	0.78*10-6
Hardness (load 500g)	Gpa	13.5
Flexural	Mpa	320

Information required when customized Ceramic Micro Heater for E-cigarette

- 1.working voltage
- 2.Heater shape
- 3.Heater dimension

- 4.Heating resistance/power/working temperature requirement
- 5.Leads length and direction
- 6.Working temperature

If you have drawing that would be perfect. Samples or photos also will be great help to us.

Ceramic is the Best Heating Elements for Ecigarette

Ceramic is inert - it is this quality that makes ceramic heating elements a top favorite among vapers. this means that ceramic heating elements, such as ceramic heating chambers found in dry herb vaporizers, won't chemically interact with the herbs during vaporization process. This results in pure, unaltered flavors as opposed to the weird taste that some heating elements infuse into the vapor.

Packing and Delivery

The suitable packing should be taken to avoid the breakage and contamination during the shipment. Fast International Express Delivery such as DHL,TNT,FEDEX, UPS ect.

FAQ

Can I customize Ceramic Micro Heater for E-cigarette For myself?

Yes, we can customize as your need, we have R&D department, our designers can make design for you and our technicians make prototype.

How far is your factory from the airport and train station?

From airport about 30 minutes by car, and from train station about 20 minutes.

We can pick up you.

What's the payment terms?

100% TT advanced for small orders.

T.T with 30% down payment,70%before shipment for large order.

Paypal or West Union also accept.

May I know what's the nearest airport from your company in case I visit your company.

Xiamen airport,welcome to visit us.

Is the sample available?

Yes, Free samples are available for you to check the quality once confirmed after 1~2day if have stock.
